

Interview(Questionnaire) P1-P6

The survey was conducted in person on a one-to-one basis between April and May 2026. A total of six students were invited to take part in the product trial, and six valid questionnaires were collected.

Chi Wang.pdf

* 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

* 2. Which functions of Hello Seed are you interested in? [多选题]

Temperature and Humidity Monitoring; Daily Fortune Telling; Feeding Function

* 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Will try

* 4. Which feature is most likely to make you want to try this app? Why?

My favourite feature is the daily fortune-telling, as I'm interested in the occult. It's also quite nice to be able to check the weather forecast every day.

* 5. Which features are you not entirely satisfied with, and why?

Overall, it's quite good, but it could do with a few more new features or ways to play to make the app more interesting.

* 6. What other areas do you think the App could be improved in?

If one draws an inauspicious fortune, could you include a feature to 'dispel' it, similar to the practice in Japanese shrines where, if one draws an inauspicious fortune, it can be tied to a specific post to ward off evil spirits and dispel misfortune?

7. Is there anything else you'd like to add?

(空)

Tong Lu.pdf

- * 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

- * 2. Which functions of Hello Seed are you interested in? [多选题]

Temperature and Humidity Monitoring; Interactive Function

- * 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Not interested with, maybe will try

- * 4. Which feature is most likely to make you want to try this app? Why?

The feature I'm most keen to try is the real-time display of temperature and humidity. As I keep plants, I often need to monitor changes in the ambient temperature and humidity. It would be very handy to have a tool that displays this data.

- * 5. Which features are you not entirely satisfied with, and why?

It's interesting that each feature has a different illustration; most of the images have transparent backgrounds, but the images in the daily horoscope section have white backgrounds, which looks a bit odd.

- * 6. What other areas do you think the App could be improved in?

The interactive features are a bit too basic; they only allow for one-way interaction. For example, when you click the interactive button, Hello Seed responds. It would be great if some two-way dialogue features could be added.

7. Is there anything else you'd like to add?

(空)

Junyu Jin.pdf

* 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

* 2. Which functions of Hello Seed are you interested in? [多选题]

Daily Fortune Telling; Interactive Function; Feeding Function

* 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Sounds interesting but will not try

* 4. Which feature is most likely to make you want to try this app? Why?

I think it's quite interesting to be able to feed. Reminds me of feeding electronic pets regularly every day when I was a child.

* 5. Which features are you not entirely satisfied with, and why?

Since the setting of Pokémon has been adopted, how about try to increase your ability to talk.

* 6. What other areas do you think the App could be improved in?

Since it is a life software, you can try to do it in a more life-oriented direction, such as todo list or something.

7. Is there anything else you'd like to add?

(空)

Figure 3: Junyu Jin (P3) Screenshot of the questionnaire.

Zizhu Qian.pdf

- * 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

- * 2. Which functions of Hello Seed are you interested in? [多选题]

Temperature and Humidity Monitoring; Daily Fortune Telling; Chat Function; Interactive Function; Feeding Function

- * 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Will try

- * 4. Which feature is most likely to make you want to try this app? Why?

I'm quite interested in Pokémon myself; I feel the whole concept has that sense of collecting and companionship. Plus, being able to check the daily temperature changes in real time feels both practical and quite fun.

- * 5. Which features are you not entirely satisfied with, and why?

Some features, such as evolution and skills, are a bit too abstract and lack a sense of companionship; it would be great if some more practical, everyday features could be added.

- * 6. What other areas do you think the App could be improved in?

It could include some new practical features, such as reminders of what tasks I need to tackle next.

7. Is there anything else you'd like to add?

(空)

Zhengran Wu.pdf

* 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

* 2. Which functions of Hello Seed are you interested in? [多选题]

Temperature and Humidity Monitoring; Daily Fortune Telling; Interactive Function

* 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Will try

* 4. Which feature is most likely to make you want to try this app? Why?

I think this is a very potential and interesting app.

* 5. Which features are you not entirely satisfied with, and why?

The problem with the picture in the ai chat module. The image of the elf is very cute, but with a white background, it is still not exquisite enough. In this aspect, it can be changed.

* 6. What other areas do you think the App could be improved in?

No, I think it's all good.

7. Is there anything else you'd like to add?

(空)

Figure 5: Zhengran Wu (P5) Screenshot of the questionnaire.

Zhaocheng Zhang.pdf

- * 1. Do you think Hello Seed's user interface is simple and clear enough, allowing you to see all the features at a glance?

Yes

- * 2. Which functions of Hello Seed are you interested in? [多选题]

Daily Fortune Telling; Chat Function; Interactive Function

- * 3. Do you think this app is interesting enough? If it were released on the App Store, would you want to download it or give it a try?

Will try

- * 4. Which feature is most likely to make you want to try this app? Why?

It seems that there are not many softwares that can chat with Pokémon, which is relatively attractive to me.

- * 5. Which features are you not entirely satisfied with, and why?

Sign-shake function. This is a function that surprised me, so I tried it, but three of the four times are bad. You can adjust the probability.

- * 6. What other areas do you think the App could be improved in?

It would be nice if you could add a signature release function, or jump directly to the AI chat section, which can help me solve it directly.

7. Is there anything else you'd like to add?

You have adopted the elf image of Pokémon. Is there really no copyright problem?
